Appropriate \$1,485,647 with full reimbursement of \$1,337,082 from the Federal Aviation Administration and \$148,565 from State Aviation Entitlement Funds for construction/rehabilitation of the airport's Taxiway "B" and certain other airfield projects; authorize the City Manager to execute related construction contracts and grant agreements.

SUMMARY:

Taxiway "B" is the airport's primary taxiway serving the main air carrier runway. The existing taxiway surface is approximately 20 years old, and is beginning to exhibit signs of oxidation and cracking. Accordingly, this project involves a complete rehabilitation and overlay of the existing pavement for Taxiway "B" and adjoining connector taxiways. In addition, the project also includes the relocation of an existing taxiway located in the corporate hangar area of the airport, as well as the construction of a new connector taxiway at the approach end of Runway 17 to accommodate a previously relocated threshold on that runway. The project is eligible for 90% federal and 10% state funding and is included in the airport's approved federal and state Airport Capital Improvement Program (ACIP) and Airport Layout Plan (ALP).
